INFRASTRUCTURE FOR
THE TRANSPORTATION
OF HYDROGEN GAS
THROUGH PIPELINES**

AUGUST 27, 2021

**TIME: 1430 HRS TO 1630 HRS. (IST)
1100 HRS TO 1300 HRS. (CET)**

FREE WEBINAR ON
27 August 2021

Free Webinar on

**INFRASTRUCTURE FOR THE
TRANSPORTATION OF HYDROGEN GAS
THROUGH PIPELINES**

27 August 2021

International Tube Association (ITA) (www.itatube.org) is the world's largest and most influential personal membership association for the tube & pipe industries and offers a unique range of benefits, services and events to promote new technology and growth within the industry. Individuals in more than 70 countries worldwide have already discovered the world of difference ITA membership can make to them personally and to their business. ITA in India is based in Chennai and is involved in training and education of its members on manufacturing and technology for Tubes and Pipes.

ITA India chapter, supported by Messe Düsseldorf India (MDI) will be holding the free webinar on **Infrastructure for the Transportation of Hydrogen Gas through Pipelines on August 27, 2021**. The webinar is intended for discussion on future readiness of India and to reduce greenhouse emission by using hydrogen gas as an alternative fuel to fossil fuel and also to control of CO₂ emission by carbon capture technology. Hydrogen gas has been identified as one of the energy source for future which require robust infrastructure and pipelines for the safe transportation across the globe. The carbon capture and its safe storage is very much important to control the climate changes of the world.

The webinar will feature speakers across the Globe, manufacturers of Tubes and Pipes and the infrastructure developers. It will provide insights for development of possibilities for Innovation in usage of Tubes and Pipes for Transportation of Hydrogens Gas & Carbon Capture while meeting the durability, quality, cost effectiveness and ease of safe operation. Please be at the centre of this programme as a delegate, listening to, interacting

and exchanging ideas with the top professionals from Tubes and Pipes Manufacturing, Value Chain partners and allied stake holders.

The programme is scheduled from 1430 Hrs to 1630 Hrs (IST) (1100 Hrs to 1300 Hrs CET) and will engage you for about 2 hours.

Please register in advance for this webinar through the link provided
